

18th **IBRC**  
28 JULY - 1 AUGUST 2019  
THE SLATE, PHUKET, THAILAND

# PROGRAM

**Thursday, 1 August 2019**

**Room: Tongkah 2**

## Parallel Session: Bat Mortality and Conservation Solutions

**Chair: Winifred F. Frick, Bat Conservation International**

**Co-chair: Joe Chun-Chia Huang, Southeast Asian Bat Conservation and Research Unit**

09.15 - 09.30	<b>AO3-127</b>	<b>Bats and Windfarms – Lessons from Europe and Western Palearctic. What about the rest of the World?</b>
		Daniela Hamidovic
		Croatian Biospelological Society, Croatia
09.30 - 09.45	<b>AO3-136</b>	<b>Conserving Caves in the Caribbean for Critically Endangered Bats</b>
		Winifred F. Frick
		Bat Conservation International, USA
09.45 - 10.00	<b>AO3-102</b>	<b>Bat Overpasses as a Solution to Increase Habitat Connectivity Depending the Context</b>
		Fabien Claireau
		Naturalia Environnement, France
10.00 - 10.15	<b>AO3-109</b>	<b>Identifying the Patterns and Potential causes of Bat Roadkill Incidence in Taiwan</b>
		Joe Chun-Chia Huang
		Southeast Asian Bat Conservation and Research Unit, Taiwan
10.15 - 10.30	<b>AO3-117</b>	<b>Are bats susceptible to vehicle collisions in Thailand? A case study in a biodiversity hotspot</b>
		Inês Silva
		King Mongkuts University of Technology Thonburi, Thailand
10.30 - 10.45	<b>AO3-120</b>	<b>A Connectivity Model for Bats in Fragmented Landscapes</b>
		Luc De Bruyn
		Research Institute for Nature and Forest, Belgium
